

22 April 2008

To whom it may concern

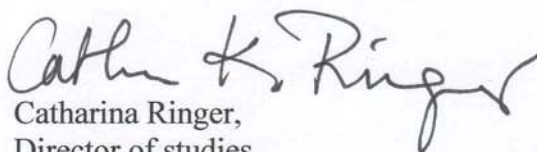

### Reference letter

We shall hereby confirm that Michael Hardenfelt has been a part of our team of Danish teachers since July 2005.

Michael has until now participated in three intensive courses for Polish doctors. Throughout a 7-months course for 40 hours per week our candidates are being prepared to start a professional career as specialist doctors in Denmark.

Michael has mainly been involved in teaching administrative language, aspects of medical law, basic language abilities and also discussion classes with focus on the Danish society. He has also been conducting language assessment courses, where we establish the doctors ability to learn Danish in such a short period of time.

We see Michael as an creative and innovative teacher who within a very short time is able to introduce large and complicated quantities of material in a simple and easy to grasp form. It is a pleasure to work with Michael and we hope to be able to continue our cooperation in the future.
